Changes to Duke Energy Distribution Lists  
for NRR Correspondence

The purpose of this letter is to provide information that will permit the transmittal of correspondence from NRR to Duke Energy Corporation by means of electronic mail. In addition, some of the external addressees have been contacted to confirm their desire to remain on distribution, and to solicit their electronic mail address, if agreeable.

Duke expects to continue a limited number of paper copies since these are still considered the official version of these reports. However, electronic transmittal will facilitate the review of this information in advance of receipt of the paper copy. This will also minimize the amount of paper copies that need to be generated and the need for continuous revision as people and addresses change.

Attached are marked up pages of each site's current distribution list for NRR correspondence. Those entities where e-mail addresses are given may be removed from paper copy distribution. Additionally, there are several other changes we have made to the list as a result of our contacting the various non-Duke recipients.

A letter similar to this one was sent on January 26, 1999 communicating changes to the NRC Region II Inspection Report distribution lists.
