Subject: Oconee Nuclear Station
Docket Numbers 50-269, 50-270, and 50-287
Issuance of the Approved Versions of
Topical Report DPC-NE-3005P, Revision 1
TAC Nos. MA4713, MA4714, and MA4715

By letter dated May 25, 1999, the NRC transmitted a safety evaluation for the subject topical report revision. Duke Energy Corporation has now reprinted this topical report in both proprietary and non-proprietary versions. Accordingly, enclosed are 15 copies of the proprietary version and 12 copies of the non-proprietary version, submitted in accordance with the guidance contained in NUREG-0390.

Please note that there is information enclosed that Duke considers proprietary. In accordance with 10CFR2.790, Duke requests that this information be withheld from public disclosure. An affidavit which attests to the proprietary nature of this information is enclosed.

If there are any questions or if additional information is needed on this matter, please call J. S. Warren at (704) 382-4986.

Very truly yours,

M. S. Tuckman

AFFIDAVIT

1. I am Executive Vice President of Duke Energy Corporation; and as such have the responsibility for reviewing information sought to be withheld from public disclosure in connection with nuclear power plant licensing; and am authorized on the part of said Corporation (Duke) to apply for this withholding.
2. I am making this affidavit in conformance with the provisions of 10CFR 2.790 of the regulations of the Nuclear Regulatory Commission (NRC) and in conjunction with Duke's application for withholding, which accompanies this affidavit.
3. I have knowledge of the criteria used by Duke in designating information as proprietary or confidential.
4. Pursuant to the provisions of paragraph (b)(4) of 10CFR 2.790, the following is furnished for consideration by the NRC in determining whether the information sought to be withheld from public disclosure should be withheld.
 - (i) The information sought to be withheld from public disclosure is owned by Duke and has been held in confidence by Duke and its consultants.
 - (ii) The information is of a type that would customarily be held in confidence by Duke. The information consists of analysis methodology details, analysis results, supporting data, and aspects of development programs relative to a method of analysis that provides a competitive advantage to Duke.

M. S. Tuckman

(Continued)

- (iii) The information was transmitted to the NRC in confidence and under the provisions of 10CFR 2.790, it is to be received in confidence by the NRC.
- (iv) The information sought to be protected is not available in public to the best of our knowledge and belief.
- (v) The proprietary information sought to be withheld in this submittal is that which is marked in the proprietary version of Topical Report DPC-NE-3005P, Revision 1, *UFSAR Chapter 15 Transient Analysis Methodology*. This information enables Duke to:
 - (a) Respond to NRC requests for additional information regarding transient response of Babcock & Wilcox PWRs.
 - (b) Simulate UFSAR Chapter 15 transients and accidents for Oconee Nuclear Station.
 - (c) Perform safety evaluations per 10CFR50.59.
 - (d) Support Facility Operating Licenses/Technical Specifications amendments for Oconee Nuclear Station.

M. S. Tuckman

(Continued)

- (vi) The proprietary information sought to be withheld from public disclosure has substantial commercial value to Duke.
 - (a) It allows Duke to reduce vendor and consultant expenses associated with supporting the operation and licensing of nuclear power plants.
 - (b) Duke intends to sell the information to nuclear utilities, vendors, and consultants for the purpose of supporting the operation and licensing of nuclear power plants.
 - (c) The subject information could only be duplicated by competitors at similar expense to that incurred by Duke.

- 5. Public disclosure of this information is likely to cause harm to Duke because it would allow competitors in the nuclear industry to benefit from the results of a significant development program without requiring commensurate expense or allowing Duke to recoup a portion of its expenditures or benefit from the sale of the information.
