**Withdrawal of EMF-93-177P-A Revision 1, Supplement 2P Revision 0 "Mechanical Design for BWR Fuel Channels Supplement 2: Zircaloy-BWR Fuel Channels"**

Ref. 1: Letter Pedro Salas (AREVA) to Document Control Desk (NRC), "Request for Review and Approval of EMF-93-177P-A Revision 1, Supplement 2P, Revision 0, 'Mechanical Design for BWR Fuel Channels Supplement 2: Zircaloy-BWR Fuel Channels'," NRC:14:074, December 18, 2014.

In Reference 1, AREVA Inc. (AREVA) submitted Topical Report (TR) EMF-93-177P-A Revision 1, Supplement 2P, Revision 0, "Mechanical Design for BWR Fuel Channels Supplement 2: Zircaloy-BWR Fuel Channels" to the NRC requesting review and approval.

After discussion with the NRC Staff regarding this submittal, the AREVA strategy for introduction of Zircaloy (Zry)-BWR fuel channels has been modified. As a result of the revised strategy, AREVA is requesting to withdraw the topical report and accompanying material in Reference 1. In the coming weeks, AREVA will develop a new TR that will reflect the revised strategy for introduction of the Zry-BWR fuel channels for use in the BWR fleet.

If you have any questions related to this information, please contact Mr. Alan Meginnis by telephone at (509) 375-8266, or by e-mail at [Alan.Meginnis@areva.com](mailto:Alan.Meginnis@areva.com).

Sincerely,

Pedro Salas, Director  
Licensing & Regulatory Affairs  
AREVA Inc.
