Dear Mr. Mazzola:

I would like to nominate Dr. Leah Parks as an authorized U.S. Nuclear Regulatory Commission (NRC) representative in the role as Sub-Committee Chair of the Subcommittee of Siting and Environmental Monitoring. Dr. Parks is a technical reviewer and is responsible for conducting decommissioning reviews for facilities regulated by the NRC, ensuring the facilities meet requirements for radiological releases to the environment.

Dr. Parks' American Nuclear Society (ANS) Standards Volunteer Form has already been provided to ANS and is attached as an enclosure.

In accordance with Office of Management and Budget (OMB) Circular A-119, A Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities, February 19, 1998, the participation on a committee of an authorized NRC representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing organizations will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.
