SUBJECT:  
Beaver Valley Power Station, Unit No. 2  
Docket No. 50-412, License No. NPF-73  
Steam Generator Tube Metallurgical Examination Results

By letters dated August 11, 2014 (Agencywide Documents Access and Management System [ADAMS] Accession No. ML14224A573) and February 16, 2015 (ADAMS Accession No. ML15047A015), FirstEnergy Nuclear Operating Company indicated that remaining steam generator tube metallurgical examination results would be submitted when available. Enclosure A provides a nonproprietary version of the Westinghouse Electric Company LLC (Westinghouse) final metallurgical examination results. Enclosure B contains the Westinghouse affidavit to support the disclosure request for the proprietary report. Enclosure C provides a proprietary version of the report and should be withheld from public disclosure. Once Enclosure C has been separated from this letter, the letter can be decontrolled.

There are no regulatory commitments contained in this letter. If there are any questions or if additional information is required, please contact Mr. Thomas A. Lentz, Manager – Fleet Licensing, at (330) 315-6810.

Sincerely,

A handwritten signature in black ink, appearing to read "E. A. Larson", written in a cursive style.

Eric A. Larson
