Dear Mr. Goorevich:

Enclosed is an application (XSOU8839), dated April 20, 2015, received by the U.S. Nuclear Regulatory Commission from Transport Logistics International, for the export of 260,000 kilograms uranium as natural uranium hexafluoride (UF₆) to Europe for uranium enrichment at URENCO plants in Germany, The Netherlands, and the United Kingdom to ultimately be used as fuel in nuclear power facilities in the EURATOM community.

Assurances from EURATOM that the material will be subject to all of the terms and conditions of an agreement for cooperation, are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of Australian, Canadian, Kazakhstani, Namibian, Russian, U.S., Uzbekistani, Nigerian, Malawian, and EURATOM origin. Thus it has Australian, Canadian, and EURATOM obligations.

Sincerely,
