FPL Comments for the 2015 Written NRC License Examination

In accordance with NUREG-1021, Operators Licensing Examination Standards for Power Reactors, Section ES-402, Administering Initial Written Examination, Subsection E.5, Post-Examination Reviews, Florida Power & Light Company (FPL) submits herein for your review and evaluation applicant comments for the site-specific licensed operator written examination, administered at Turkey Point on February 18, 2015.

FPL has considered the guidance provided in ES-403 Section D.1, Evaluate Questions and Comments, and found that four of these comments meet the review criteria and should be submitted to NRC for post examination modification of the answer key. FPL is providing a recommendation as to whether the answer should be changed or the question should be deleted for each of the comments submitted.

The written examination answer key is provided in Attachment 1. The post written examination comments and related information are provided in Attachment 2.

The attachments shall be withheld from public disclosure due to examination sensitive material.

Should there be any questions, please contact Mark Wilson at (305) 246-6900.

Sincerely,
