Hello! I'm attaching a scan of how I think regulations reviewed outside of a RATS have been entered on the SRS sheet, if it helps any. The extra notes are for me. Each group of reg's entered under "NRC Chronology Identification" (pg. 11) represents a separate rule package submittal...so I added the reg's outside of a RATS reviewed by you guys in our April 2015 package. I think it's good to do what you did and note which of those reg's the comment was regarding. I see you guys have decided to not "write-over" proposed ML submissions when made final, but rather enter the final ML submission below that...that should help, too. Pg. 10 just had a type-o in the outgoing package year for RATS 2015-2. I hope you can read it all; I had written in pencil.

Do I need to send a letter for these changes? Thank you!

Angela
