"PNPS workers observed endangered whales of the waters of PNPS. There was a confirmed sighting of nine North Atlantic Right Whales (*balaena glacialis*). This will be reported to National Marine Fisheries by members of the Whale and Dolphin Conservation (WDC) LAW PNPS procedures.

"Background:

"As a result of a mandated environmental review that occurred for PNPS's license extension, the National Marine Fisheries Service (NMFS) requested that the US NRC require the plant to report any observations of "listed" (i.e., endangered or threatened) whale species to NMFS within 24 hours.

"This report is made LAW 10CFR72(b)(2)(xi)"

The licensee notified the NRC Resident Inspector, the State and Local governments, and the NMFS.

Notified the R1DO (Gray) and the Endangered Species Group (email).
