Abaqus Software License Subscription

On April 23, 2015, as a result of a non-competitive solicitation, fixed-price delivery order number NRC-HQ-60-15-T-0001 was issued under General Services Administration Schedule Number GS35F0265X to Immix Technology, Inc. of McLean, Virginia. The order provides for a subscription to the ABAQUS Software License. The period of performance is May 15, 2015 through May 14, 2016, with two 1-year options periods. The total ceiling price is \$206,414, inclusive of options.

Development of Standardized Regulatory Improvement Concerning Core Operating Limits Report

On April 28, 2015, as a result of a non-competitive solicitation, cost-reimbursement task order number NRC-HQ-20-15-T-0007 was issued under enterprise-wide contract number NRC-HQ-50-14-E-0001 to Southwest Research Institute of San Antonio, Texas. The task order provides for the development of regulatory guidance for generating cycle-specific Core Operating Limits Report (COLR), development of a database of COLR data from all operating units for the Nuclear Regulatory Commission (NRC) use, and development of guidance for the NRC review of COLRs. The period of performance is May 1, 2015 through September 30, 2016. The total estimated price ceiling is \$455,262.

Freedom of Information Act and Privacy Act Requests and Appeals Received During the Period of April 24 – April 30, 2015

Copy of the Office of the Chief Human Capital Officer's file associated with an investigation of named individual, September 2014.	FOIA/PA-2015-0239
Updated copy of outstanding/stale-dated check lists (Limited Payability Cancellation Report) of refunds and credits, and undeliverable checks for fiscal year 2014.	FOIA/PA-2015-0240
Reports, investigative findings, and safety concerns regarding the Arkansas Nuclear One stator incident, March 31, 2013.	FOIA/PA-2015-0241
Copies of reports or studies produced by the Nuclear Regulatory Commission or its contractors on the risks of geomagnetic storms to the nation.	FOIA/PA-2015-0242
Full and complete list of sites with inactive licenses.	FOIA/PA-2015-0243
Appeal: Withholding of information with Exemption 7(E) in released records pertaining to FOIA/PA-2014-0344.	FOIA/PA-2015-0025A
Records associated with the Office of the Inspector General's Allegation #A13-07267 and Case #13-052.	FOIA/PA-2015-0244
Copy of direct correspondences with US Senator Mark Kirk or his staff, January 2001-present.	FOIA/PA-2015-0245
Copy of the Sensitivity studies concluding that an infinite source would not significantly increase either the pressure pulse or heat flux to levels that would damage Seismic Source Characterizations in the SOCA.	FOIA/PA-2015-0246
Copy of the Federal Bureau of Investigations "Terrorist Threats to the United States Homeland: Reporting Guide for Critical and Key Resource Owners and Operators," dated January 24, 2005.	FOIA/PA-2015-0247
Copy of the Information Assessment Team advisories dated October 10, 2001, November 16, 2001, May 20, 2003, March 1, 2004, and October 5, 2005.	FOIA/PA-2015-0248
Appeal of search performed pertaining to FOIA/PA-2015-0211.	FOIA/PA-2015-0026A
Any known policies that reference the National Security Agency and Central Intelligence Agency.	FOIA/PA-2015-0249
Guidance written for or behalf of the Chief FOIA/PA officers that provides departmental application of FOIA exemption (5), from 2010-current.	FOIA/PA-2015-0250
Copies of ammunition purchases regardless of caliber and intended use including all training defensive and crowd control purposes for FY13-FY16.	FOIA/PA-2015-0251

Office of Nuclear Reactor Regulation (NRR)
Items of Interest
Week Ending May 1, 2015

Fort Calhoun Station Pre-licensing Public Meeting

On April 23, 2015, representatives of Omaha Public Power District held a pre-licensing public meeting with the Office of Nuclear Reactor Regulation at the Nuclear Regulatory Commission (NRC) Headquarters to discuss the licensee's plans to submit two upcoming license amendment requests: (1) Reclassification of systems based on American National Standards Institute 58.14 (systems would be classified as safety-related, augmented quality, or non-safety related); and (2) revise licensing\design basis to adopt the American Concrete Institute Code ACI-318 (1971) for Class I structures at the site with the exception of the containment shell. Both of these proposed actions are intended to provide a path to reconciliation of NRC concerns regarding containment internal structures.

Issuance of Davis-Besse Final Supplemental Environmental Impact Statement

On April 24, 2015, the staff issued Final Supplement 52 to NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Regarding Davis-Besse Nuclear Power Station, Unit 1." The final supplemental environmental impact statement (FSEIS) represents the completion of the staff's environmental review of the license renewal application submitted by FirstEnergy Nuclear Operating Company. The FSEIS contains the staff's conclusion that the adverse environmental impacts of license renewal would not preclude renewing the plant's license for an additional 20 years.

American Society of Mechanical Engineers Boiler and Pressure Vessel Code Week

During the week of April 27, 2015, the staff participated in the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code Week Committee Meetings. The purpose of these meetings was to revise the ASME Boiler and Pressure Vessel code to address advances in technology and operating experience, thereby ensuring continued safe operation of nuclear power plants. Staff members are involved in these meetings to ensure that the ASME Code committees are aware of the Nuclear Regulatory Commission (NRC) positions and to provide necessary input to the code writing process to minimize the imposition of conditions by the NRC when ASME Code products are incorporated by reference into NRC regulations.

Commission Correspondence

1. Letter to Daniel B. Shrum, Senior Vice President, Regulatory Affairs, EnergySolutions, responds to letter regarding accelerating decommissioning activities at operating reactors, dated April 20, 2015.
2. Letter to the Honorable Matthew Mead, Governor, State of Wyoming, responds to his letter of intent to pursue an agreement between his State and the Nuclear Regulatory Commission (NRC) pursuant to Section 274b of the Atomic Energy Act of 1954, as amended, dated April 2, 2015.
3. Letter to Representatives Fred Upton, John Shimkus, Ed Whitfield, Harold Rogers, and Mike Simpson and Senator's James Inhofe, Shelley Moore Capito, and Lamar Alexander, provides the March monthly status report on the NRC's activities and use of unobligated carryover funds appropriated from the Nuclear Waste Fund, dated April 22, 2015.
