

May 18, 2015

The Honorable John McCain  
United States Senate  
Washington, DC 20510

Dear Senator McCain:

This is to acknowledge receipt of your letter dated February 24, 2015, regarding your constituent, Ann Marie Zeller, and her concerns regarding the United States (U.S.) export of uranium to Russia.

The U.S. Nuclear Regulatory Commission (NRC) contacted Ms. Ann Marie Zeller on February 13, 2015, and provided a response to her concerns. In regards to Ms. Zeller's question of exporting uranium to Russia, the NRC has granted a specific export license authorizing 32,200,000 kgs of uranium to Transport Logistics International, Inc., and is reviewing an export license application from ConverDyn to authorize 15,000,000 kgs of uranium to export to Russia. It is important to make clear that these licenses are reviewed and issued consistent with NRC's regulations and export licensing criteria found in 10 CFR Part 110, "Export and Import of Nuclear Equipment and Material" which ensure the safe and secure use of nuclear materials. These reviews include obtaining the views of the relevant Executive Branch agencies, as well as receipt of government to government assurances from Russia regarding peaceful uses of the material.

Sincerely,

*/RA/*

Mark A. Satorius  
Executive Director  
for Operations
