Docket No. 03020541
Control No. 586627

License No. 52-21350-01

Fernando Martinez, P.E.
General Manager
Alonso & Carus Iron Works, Inc.
P. O. Box 566
Cataño, PR 00963

SUBJECT: ALONSO & CARUS IRON WORKS, INC., ACCEPTANCE OF NOTIFICATION
OF BANKRUPTCY FILING, CONTROL NO. 586627

Dear Mr. Martinez:

This refers to your letter dated April 7, 2015, notifying this office that Alonso & Carus Iron Works, Inc., filed for bankruptcy under Chapter 11 of the United States Bankruptcy Code. Your letter is accepted as the notification required by 10 CFR 30.34(h)(1), however, please note that the regulation requires *immediate* notification of any bankruptcy filing. The purpose of the regulations is to ensure that public health and safety is adequately protected, and all licensed material is properly controlled.

During your telephone conversation with Sattar Lodhi of this office on April 6, 2015, you stated that Alonso & Carus Iron Works, Inc. continues to operate normally and all licensed material remains in your possession securely stored at your facilities.

Please be reminded that this bankruptcy filing does not relieve Alonso & Carus Iron Works, Inc., of its obligations to comply with NRC requirements, including those relating to security and control of licensed material; decontamination and decommissioning of any contaminated facilities; and the retention of personnel required by NRC requirements [e.g., the Radiation Safety Officer (RSO), authorized users, etc.]. Additionally, the license conditions and the license remain in full effect even beyond the stated expiration date of the license, until the license is terminated in writing by NRC. Inspections of your activities by the NRC will continue to occur in the interim.

If the RSO leaves your employ, you must first properly secure, dispose of, or transfer all licensed material, and you must inform NRC of this situation. If you need to close a facility, you must first properly secure, dispose of, or transfer all licensed material that was in the facility.

You may not transfer control of your license or licensed material without prior written NRC approval, except as authorized by NRC regulations. You should ensure that your attorney and any trustee involved in the bankruptcy proceedings are aware of these obligations. Any person or entity who takes control of licensed activities or possession of the licensed material must first obtain an NRC license if not already authorized to possess your licensed material by the NRC

or an Agreement State. Additionally, pursuant to Section 184 of the Atomic Energy Act, a reorganized entity emerging from Chapter 11 bankruptcy is required to receive written approval from NRC prior to assumption of control over your licensed activities.

The regulations cited above require each licensee to provide the required notification, therefore we request your assistance in providing to us the names, addresses, and telephone numbers of any other entities that may be affected by this bankruptcy filing (e.g., sister or daughter company with an NRC or an Agreement State license).

Please notify this office immediately, in writing, if you are unable to meet any of these requirements/conditions. Also please notify this office: (1) of any changes to your licensed activities that the bankruptcy court may require; (2) when the bankruptcy proceeding is completed; and (3) when Alonso & Carus Iron Works, Inc., emerges from bankruptcy. Please contact Sattar Lodhi of this office at (610) 337-5364 if you have any questions or need information concerning the status of your licensed activities.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Med, Ind, & Academic Users**; then **Regulations, Guidance and Communications**. The current Enforcement Policy is included on the NRC's website at www.nrc.gov; select **About NRC, Organizations & Functions; Office of Enforcement; Enforcement documents**; then **Enforcement Policy (Under 'Related Information')**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

Sincerely,

Original signed by Blake Welling
