Subject: FWS Information

Hi Briana,

Thank you again for working with us on both of these projects. It was really great to meet with you and Dennis over the past two days.

Matt wanted me to pass along the following information that we talked about today at PSL.

FWS would like to make sure you include the following three topics in your correspondence, so that they will not need to request for additional information:

- 1) Temperature impact on the crocodiles
- 2) Information and effects of the Copper Sulfate
- 3) Aquifer used to add fresh water to the system

Ashleigh from FWS had provided this information, so if you have any questions, you may want to call her or John Wrublik. Ashleigh's phone number is 772-469-4246.

If there is any information that you need from us or if you have any other questions, please do not hesitate to call me tomorrow. I will be in the office all day.

Thank you,

Jodie
