Event Date - Time : 05/10/2015 - 08:15 ()
Site : PILGRIM
Emergency Class : NON EMERGENCY

"PNPS workers observed whales off the waters of PNPS. There was a confirmed sighting of two North Atlantic Right Whales (*balaena glacialis*). This will be reported to National Marine Fisheries by members of the Whale and Dolphin Conservation (WDC) IAW PNPS procedures.

"Background: As a result of a mandated environmental review that occurred for PNPS's license extension, the National Marine Fisheries Service (NMFS) requested that the US NRC require the plant to report any observations of "listed" (i.e., endangered or threatened) whale species to NMFS within 24 hours.

"This report is made IAW 10CFR72(b)(2)(xi)"

The licensee will notify the NRC Resident Inspector.

Notified R1D0 (Schroeder) and the Endangered Species Group (email).
