---

Hi,

Is there any doubt that you will rubber stamp the army's every request??? Why don't you call it a done deal now and stop wasting everyone's time and the taxpayers money being paid to you and the rest of those robots.

**Subject:** March 24, 2015 Meeting Summary- SUC-1593 (DAVY CROCKETT LICENSE)

Hello,

The NRC and the Army met on March 24, 2015 in a pre-licensing meeting to discuss the Army's draft amendment application for possession only of depleted uranium from the Davy Crockett Weapon System as related to Source Materials License No. SUC-1593. I want to inform you that the March 24, 2015 meeting summary is now available. I have provided the ADAMS Accession No. below for your use.

[View ADAMS P8 Properties ML15096A285](#)

[Open ADAMS P8 Document \(Meeting Summary - March 24, 2015 meeting on the draft application TO ADD THE REMAINING SITES THAT HAVE DEPLETED URANIUM FROM THE DAVY CROCKETT Weapon System \(SUC-1593\).\)](#)

We understand that the Army intends to submit its amendment application by June 1, 2015 using a Programmatic Approach to add the remaining sites to be licensed. Now that we understand that it is likely that the Army will include the two Hawaiian sites in its amendment application; we intend to schedule the agendas for future public meetings in such a way that discussion of the Hawaii facilities will occur during local business hours in Hawaii. Please note that the current license remains in effect and only will be modified if the NRC approves the amendment request and amends the license.

After the Army submits its amendment application, I will notify you by email that we have received it. Then we will conduct an acceptance review to determine if the NRC will accept the application for a detailed technical review.

If you have questions concerning the above information, please contact me.

Thank you.  
Amy Snyder
