UNITED STATES NUCLEAR REGULATORY COMMISSION
Region III, Office of Materials Licensing
2443 Warrenville Road Suite 210
Lisle, IL 60532-4352

ATTN: Bill Reichhold

RE: Control Number 586427
The South Bend Clinic
NRC License Number: 13-32393-01

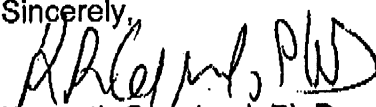

Dear Mr. Reichhold:

In response to your request, we are providing additional information regarding the removal of medical uses permitted by 10 CFR 35.300. To the best of our knowledge and through interviews with the nuclear technologist and authorized user, The South Bend Clinic has not used or stored material permitted by 10 CFR 35.300 since 2006. We do not have records prior to this date that show use of 35.300 materials. Therefore, we are unable to respond to items 1 and 2.

In response to items 3 and 4, we are enclosing the last month of daily area surveys and monthly contamination surveys for your review. We did not perform a closeout survey. Through an inspection of the nuclear department, we found there are no 35.300 materials stored.

We do understand that since we are removing 35.300 material use the 35.300 authorization for Dr. Bowers will be removed.

If you have any questions or require additional information, please contact our Radiation Safety Officer, Sharon Updike at 734-662-3197 or by e-mail at supdike@mpcphysics.com

Sincerely,

Kenneth Copeland, Ph.D
Director of Ancillary Services
The South Bend Clinic
