Observations and Analysis of Geotechnical Array Data

On April 27, 2015, as a result of a non-competitive procurement, cost-reimbursement contract NRC-HQ-60-15-C-0001 was awarded to the University of California in Santa Barbara, California. The purpose of this contract is to acquire data recorded from seismic events to improve scientific understanding of seismic site response and soil behavior during response to seismic shaking. The period performance is from May 1, 2015, through April 28, 2017. The total estimated cost ceiling is \$532,628.

Technical Assistance for Revision to NUREG-2117, "Practical Implementation Guidelines for Senior Seismic Hazard Analysis Committee Levels 2, 3, and 4 Hazard Studies"

On April 30, 2015, as a result of a non-competitive solicitation, cost-reimbursement task order NRC-HQ-60-15-T-0001 was issued under enterprise-wide contract NRC-HQ-50-14-E-0001 to Southwest Research Institute in San Antonio, Texas. The task order provides for expert technical assistance for the revision and update of NUREG-2117 to include improving the Senior Seismic Hazard Analysis Committee (SSHAC) Level 2 process definition, updates to the guidance for Levels 3 and 4 processes, and recommendations for use of SSHAC for non-seismic hazards and risk assessments. The period of performance is from May 1, 2015, through April 30, 2017. The total estimated cost ceiling is \$302,999.

Contracting Officer's Representative Training Courses

On April 30, 2015, as a result of a competitive solicitation, fixed-price task order NRC-HQ-84-15-T-0001 was issued under contract NRC-HQ-12-F-38-0022 to ESI, International, Inc. in McLean, Virginia. The task order provides for Contracting Officer's Representative training courses to be taught at the Professional Development Center. The period of performance is from May 1, 2015, through April 30, 2016. The total ceiling amount is \$192,140.

Spacer Grid Thermal Hydraulics Program

On April 30, 2015, as a result of a non-competitive solicitation, cost-reimbursement task order NRC-HQ-60-15-T-0001 was issued under contract NRC-HQ-12-C-04-0086 to Pennsylvania State University in University Park, Pennsylvania. The objective of this task order is to expand the data range of reflood tests and develop a conceptual design of a high pressure post-critical heat flux rod bundle test facility. The period of performance is from April 30, 2015, through March 31, 2016. The total estimated cost ceiling is \$499,997.

IBM Disposal and Governance Management for Information Technology User Value Unit License Plus Software Subscription and Support

On April 30, 2015, as a result of a limited competitive solicitation, order number NRC-HQ-10-15-O-0005 was issued under Blanket Purchase Agreement (BPA) NRC-HQ-11-A-33-0013 to

FOUR, LLC in Centerville, Virginia. The purpose of this BPA order is to purchase IBM Disposal and Governance Management for Information Technology (IT) User Value Unit license and software subscription and support plus IBM Global Retention Policy and Schedule Management Authorized User Value Unit license and software subscription and support. The period of performance is from May 4, 2015, through May 3, 2019. The total ceiling price is \$256,263.

Realistic Loss of Coolant Accident Evaluation Methodology Applied to the Full Spectrum of Break Sizes

On May 1, 2015, as a result of a non-competitive solicitation, cost-reimbursement task order NRC-HQ-20-15-T-0001 was issued under enterprise-wide contract NRC-HQ-25-14-E-0001 to Numark Associates in Washington, D.C. The task order provides for technical assistance in the review of the Topical Report entitled, "Realistic Loss of Coolant Accident Evaluation Methodology Applied to the Full Spectrum of Break Sizes." The period of performance is from May 4, 2015, through May 3, 2016. The total estimated cost ceiling is \$160,563.

Heat Transfer at High Pressure and Flow Conditions: Experimental Support for Trac Relap Advanced Computational Engine Model Development

On May 4, 2015, as a result of a non-competitive solicitation, cost-reimbursement task order NRC-HQ-60-15-T-0001 was issued under contract NRC-HQ-13-C-04-0022 to Purdue University in West Lafayette, Indiana. The objective of this task order is to provide the experimental data necessary for the improvement of the Trac Relap Advanced Computational Engine models for inverted annular and inverted slug film boiling. The period of performance is from June 1, 2015, through May 31, 2018. The total estimated ceiling amount is \$888,680.

Reactor Effluents: Advance Notice of Proposed Rulemaking; Request for Comment: Appendix I of Part 50 of Title 10 of the Code of Federal Regulations (Regulation Identification Number 3150-AJ38; NRC-2014-0044)

On May 4, 2015, the NRC published an Advance Notice of Proposed Rulemaking in the *Federal Register* ([80 FR 25237](#)) to obtain input from stakeholders on the development of a regulatory basis for the NRC's regulations governing radioactive effluents from nuclear power plants. The regulatory basis would support potential changes to better align the NRC regulations governing dose assessments for radioactive effluents from nuclear power plant operations with the most recent terminology and dose-related methodology published by the International Commission on Radiological Protection (ICRP Publication 103 (2007)). Comments are due by September 1, 2015.
