ATTN: Document Control Desk/Exempt Distribution
Director, Office of Nuclear Material Safety & Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Re: Reactor Watch, L.P.
License #04-35122-01E

In accordance with the requirements of 10CFR 32.16, enclosed please find our report on goods transferred under our Exempt Distribution license #04-35122-01E during the period July 1, 2014 through December 31, 2014. We were a new licensee in 2014 which is why the report only covers a partial year.

All goods listed on the report conform to the regulations set forth in 10CFR 30.15, paragraph 1. The only isotope in use by Reactor is tritium (H3), in glass vials produced by mb Microtec of Switzerland.

Should you need any clarification or any further information, please do not hesitate to contact me at the address, phone, or email below.

Sincerely

A handwritten signature in black ink, appearing to read "Scott Lipsett", with a long horizontal stroke extending to the right.

Scott Lipsett
Limited Partner, Reactor Watch L.P.
Radiation Safety Officer
