SUBJECT: EXAMINATION NOTIFICATION LETTER, NO. 50-186/OL-15-01,
UNIVERSITY OF MISSOURI – COLUMBIA

Dear Mr. Butler:

Arrangements have been made for the administration of operator licensing examinations at the University of Missouri Research Reactor Facility. The operator examinations are scheduled for the week of July 20, 2015.

I have received the materials, and to the best of my knowledge, do not require additional materials.

Signed reactor operator and senior reactor operator license applications certifying that all training has been completed must be submitted at least 14 days before the first examination dates. This will allow the chief examiner time to review the training and experience of the applicants, process the medical certifications, and process the applications. If this review cannot be completed in time to decide an applicant's eligibility, that applicant may not be permitted to sit for the examination. Therefore, it is recommended that license applications be provided as soon as possible to ensure an appropriate level of review.

The U.S. Nuclear Regulatory Commission (NRC) has posted copies of the application forms, "Personal Qualification Statement—Licensee" (NRC Form 398) and "Certification of Medical History by Facility Licensee" (NRC Form 396) on the agency's Web site at www.nrc.gov/reading-rm/doccollections/forms/nrc398.pdf and www.nrc.gov/reading-rm/doccollections/forms/nrc396.pdf, respectively. These forms are in Adobe Acrobat® format.

This letter contains information collection requirements that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018.
