Dr. Diaz (Office 787-751-0480, Business Mobile 787-632-7133, drpdiaztorres@gmail.com), I received your phone message stating that your submission of the 314 to terminate was in error. I will not submit the form 314 for termination. I will submit your signed 313 for renewal instead. However, as we discussed over the phone a few minutes ago, I will need the rest of the information as listed in the licensing guidance document NUREG 1556, "Consolidated Guidance About Materials Licenses", Volume 9, rev 2. Here is a link to a copy that you can download.

I am attaching the application that you had sent 10-years ago to assist you with your current renewal application. However, additional information is likely needed per the NUREG 1556 document referenced above. Please be sure to read it thoroughly and send the additional information in as soon as possible.

Please let me know if I can be of further assistance.

{no text sent in this e-mail from Dr. Diaz; just an attachment of two pages. One page was a NRC Form 313 and another was a NRC Form 314 with the box checked on the 314 next to "This license has not yet expired; please terminate it". No boxes were checked on the NRC Form 313. Both forms were signed by Dr. Diaz and dated 5/14/2015.}
