RE: Tunnel Ridge, LLC  
Specific License 47-35142-01 Revision

03038733

Dear: Mr. Lodhi,

Please consider this letter to be the formal request from Tunnel Ridge, LLC to increase the maximum amount our license allows of Cesium 137. The current maximum is 500 millicuries and we request an additional 50 millicuries to be a maximum of 550 millicuries. This increase is to cover an additional proposed cross belt analyzer.

Also, will you change your records to show our new Radiation Safety Officer as Troy Gussler? Troy was added as a Preparation Plant Manager in the last quarter of 2014 and has had RSO Training. If any additional information is needed about Troy, please let me know.

If you have any questions regarding these activities, do not hesitate to call me at (304) 547-2904.

Very truly yours,

John Dubowski, P.E.  
Environmental Coordinator
