Dear Mr. Hemann,

This email is in response to your amendment request dated April 28, 2015. After reviewing your request, we found that additional information is needed to proceed with the amendment of your registration certificate NR-1224-D-101-E.

Please provide the following information:

1. Please confirm that there have been no changes to the distributor's address and the manufacturer's information listed on the registration certificate.
2. Please confirm the change of ownership information included the transfer of products, records custody, and servicing arrangements for products previously distributed.
3. Please confirm that no changes were made to the product since its initial registration or last amendment.
4. In reference to the change in labeling of the level gauge, the labeling should be sufficiently durable to remain legible for the useful life of the product during normal conditions of use. Please describe how the level gauge Model ES 6510-10 will be marked (i.e. engraving, laser etching, etc.). In addition, the NRC will only accept final versions of documents. Please resubmit the final version of the drawings submitted in your amendment request dated April 28, 2015, and ensure that the "DRAFT" watermark is removed.
5. Please confirm that there are no changes to previous commitments that have been made by the previous company (System & Electronics Inc.).
6. Please confirm that there have been no changes regarding the quality assurance program on file with the NRC.

If you intend to submit the information to us via email, the information should be submitted in an official company letter as an attachment to an e-mail. Please submit the requested information within 30 calendar days of the date of this email. If we have not received the complete information within 30 days, we will consider your amendment request as having been abandoned by you. This is without prejudice to the submission of a complete new amendment request.

Thank you,

Tomas Herrera
