Subject: Response to Messrs. Brodsky and Gallay RE: Indian Point 3 Transformer Fire and Implications of Exemptions from Appendix R
Attachments: ML12172A370.pdf

Dear Messrs. Brodsky and Gallay –

I am responding to your email to Chairman Burns of the U.S. Nuclear Regulatory Commission dated May 11, 2015, regarding the transformer failure and fire at Indian Point Unit No. 3 on May 9, 2015. In your email (ADAMS Accession No. ML15133A087), you referenced previous exemptions granted to the Indian Point licensee with regard to fire protection requirements found in 10 CFR Part 50, Appendix R, Section III.G.2. Specifically, you requested:

- 1 – A complete list of all exemptions to Appendix R fire safety regulations at Indian Point,
 - 2 – A Commission inquiry into whether such exemptions were implicated in the recent incident and fire,
- and
- 3 – A public meeting to discuss the same.

I have attached a listing of all exemptions, including fire protection, granted by the NRC to Indian Point Units 2 and 3. The list is publicly available in ADAMS at Accession No. ML12172A370. While the list was compiled on June 20, 2012, it remains current as no exemptions, including fire protection, have been granted since the list was created.

The NRC staff evaluated your concern regarding Indian Point exemptions and has confirmed that the exemptions granted against Section III.G.2 of Appendix R did not contribute to the transformer fire nor did they complicate the licensee's response to the event.

NRC Region I inspectors will investigate the cause of the transformer failure and fire, the events at the plant, and the licensee's response. Their results will be published in future inspection reports.

Finally, the Indian Point Annual Assessment meeting will be held at the Westchester Marriott, Grand Ballroom Salons D and E, 670 White Plains Rd, Tarrytown, NY, on Wednesday evening, May 20, beginning at 7:00 p.m. (NRC Public Meeting 20150737). The meeting is open to the public and the May 9th transformer failure and fire at Indian Point Unit 3 will be discussed by the NRC staff. You, and any member of the public, are welcome to attend and ask questions of the staff.

I hope I have been responsive to your concerns.

Sincerely,

Douglas V. Pickett, Senior Project Manager
Indian Point Nuclear Generating Unit Nos. 2 & 3
James A FitzPatrick Nuclear Power Plant
