

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

May 19, 2015

Mr. Kevin Tuite
President and Chief Executive Officer
WMG, Inc.
16 Bank Street
Peekskill, NY 10566

SUBJECT: ACKNOWLEDGMENT LETTER – RECEIPT OF APPLICATION FOR THE
MODEL NO. WMG-150B PACKAGE

Dear Mr. Tuite:

By letter dated January 2, 2015, WMG, Inc., submitted an application for approval of the Model No. WMG-150B package. On April 29, 2015, you responded to NRC staff's request for supplemental information letter dated March 17, 2015.

This letter acknowledges receipt of your revised application. Although the application now contains enough information for a detailed technical review, we have already identified errors and technical issues that will result in a request for additional information (RAI). Once we issue the RAIs, please plan on meeting with NRC staff to discuss our expectations on the RAI responses and ensure that WMG, Inc., understands what information is needed to make a licensing determination. The current schedule allows for the staff to issue a RAI letter in July 2015.

In general, no additional changes to your application will be allowed except for those changes that result in responding to RAIs. Additional changes, supplements, or enhancements beyond the scope of the April 29, 2015, application may be treated as a new application.

Please reference Docket No. 71-9366 and TAC No. L24977 in future correspondence related to this licensing action. If you have any questions regarding this matter, you may contact me at (301) 415-7505.

Sincerely,

/RA/

Pierre M. Saverot, Project Manager
Spent Fuel Licensing Branch
Division of Spent Fuel Management
Office of Nuclear Material Safety
and Safeguards
