Subject: RE: [EXTERNAL] RE: NUREG-1556 Volume 10 draft for review
Date: Thursday, April 30, 2015 9:50:24 AM

Shirley,

On behalf of NHPP, we have reviewed the revised draft and provide the following response for NRC's consideration.

We appreciate that many of our initial comments were accepted. However, we also acknowledge that many of our initial comments were not accepted by NRC. The comments that were not accepted still stand. We have no new comments to offer on the revised draft but re-emphasize one of our non-accepted comments below.

One of our initial comments was that NRC remove the requirement to describe a formal Corrective Action Program (CAP). While we appreciate NRC's position on a CAP and the revised text of Section 5.10.18, we recommend that the "Response from Applicant" section be revised to state, "No response is required from an applicant or licensee." Our understanding is the information is that section is a recommendation only--not a regulatory requirement. Since there is no regulatory requirement to have a formal CAP, we do not understand why NRC is requiring applicants to provide a written description of a formal CAP. How (using what criteria) will NRC evaluate the description? Would this written description be interpreted as a tie-down/commitment on the license? It seems to us that by requiring a response, the recommendation is being made into a de facto requirement.

Thank you for the opportunity to review the revised draft.

Doug et al.,

Based on our time frame, we can extend the comment period to May 8th, 2015.

Hope this helps.

Shirley

Shirley-

We are currently going through our biennial inspection and are not going to be able to dedicate sufficient time in reviewing this document by April 28. Is there a way NRC can extend the date a couple of weeks?

Thanks in advance.

V/R
Doug

Dear MMLs,

Attached document is the revised Comment-Resolution Table, in line with the revised NUREG-1556 Volume 10 sent you a couple of weeks ago.

As mentioned in my previous email, Please provide your comments to me by April 28, 2015.

Thanks,

Shirley

Subject: NUREG-1556 Volume 10 draft for review

Dear MMLs,

As we discussed during our public meeting in January 2015, the revised draft of NUREG-1556 volume 10, attached document, is available for your review. This revision is based on your comments and feedback from the public meeting held in January 2015. Please note that this document is still in draft stage; the formatting, numbering, etc. of this document may not be perfected yet.

We welcome your comments on this draft, and will take into consideration any comments that you would provide. However, due to the time constraints, we will not be responding to your comments before publishing the volume.

Please provide your comments to me by April 28, 2015.

Thanks,

Shirley Xu
