Subject: Opposed to Turkey Point

To Whom It May Concern:

I would like to register my opposition to the expansion of the Turkey Point Nuclear facility by Florida Power and Light. The location, near dense population centers, adjacent to valuable natural areas, on the edge of ever-increasing sea levels all create too high a level of risk. There are better ways to supply energy to Florida citizens than this. Added to the safety issue is the total disrespect FPL shows to the communities it serves with the stated intent to install huge power poles through the middle of Coral Gables, South Miami and Miami.

Please deny FPL permission to build the new reactors.

Thank you,

Thomas M. Wade
