Subject: Expansion

Dear Sirs:

As a resident of North Key Largo for 27 years, I am living under the threat of an accident at Turkey Point, whether it be from a hurricane, operating accident or age related.

Just the operation of the existing facility has stressed the fresh water supply. The heated water has made a marked affect on marine life. Increasing the size of the power plant does not make sense as it already impacts the habitat of the area.

FPL has the opportunity to use wind or solar energy because it a perfect way to generate power without negatively impacting the National Parks, Preserves and Sanctuaries in our eco-sensitive area.

Please deny the application for the expansion of Turkey Point Nuclear Power Plant.

Sincerely,

Linda Roberts
39 Angelfish Cay Drive
Key Largo, FL 33037
