**Subject:** Opposed to FPL's power plant expansion

Ladies and Gentlemen,

Based on what I've read and heard about the environmental impact of the proposed new reactors (and the impact of the existing reactors), I am 100% opposed to the project. Given the sensitivity of our coastal waters, including the only living coral reef in the US, I am shocked that we are considering the addition to the environmental burden. Of course, beyond the daily addition of heated waters and waste, the potential disaster related to weather or other operational failure looms large. We might think we've engineered the plant properly, but as Fukushima showed us, Mother Nature has a way of overwhelming man made systems. As a resident of Key Largo, I am hopeful that you will reconsider the proposed expansion and begin thinking about decommissioning the plant as it's useful life reaches its limits.

Sincerely,

Diane Jones  
43 Card Sound Rd  
Ley Largo, FL 33037
