Subject: Protesting additional Nuclear Plants
Attachments: image001.jpg; image002.png

Dear FP & L representatives,

I sincerely hope you will withdraw your proposal to build additional nuclear plants and to install more giant size transmission poles in South Florida. I live in the City of West Miami and objected to the installation of the poles on SW 62nd avenue to no avail.

Many countries in Europe have installed necessary transmission lines underground. What are we waiting for? And could you find a better location for more solar and wind power than South Florida.

Wake up please! Save what is left of our environment.!

Concerned resident.

Judith Brown
