Attn: Vered Shaffer

Dear Ms. Shaffer,

As you know, I am taking over the practice of my colleague, Farouk Salahi, M.D.

I would like to add Dr. Salahi's Washington, MI office from NRC materials license #21-32672-01 to my license 21-35169-01. I will assume responsibility for all radioactive material operations at the Washington office.

If you have any questions regarding these matters, I suggest you contact our physicist, Vincent McCormick, at 734-395-9323.

Thank you,

Sincerely,

A.B. Shahbandar, M.D.

Owner/Radiation Safety Officer
