Attn: Vered Shaffer

Dear Ms. Shaffer,

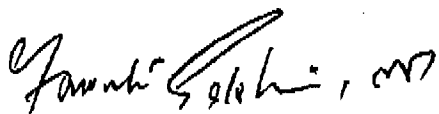

As I understand you know, I am retiring from my medical practice. It is being taken over by my colleague, A. B. Shahbandar.

I would like to terminate my NRC materials license #21-32672-01. I have closed my office in Rochester, MI and my office in Washington, MI is being taken over by Dr. Shahbandar, including all nuclear operations. All radioactive materials have been moved from my Rochester office to Dr. Shahbandar's Rochester office. All radioactive materials in the Washington office will remain there under Dr. Shahbandar's license.

If you have any questions regarding these matters, I suggest you contact our physicist, Vincent McCormick, at 734-395-9323.

Thank you,

Sincerely,

Farouk Salahi, M.D.

Owner, Salahi Heart
