Dear Mr. Hanley:

By letter dated February 17, 2015 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15142A732), the Boiling Water Reactor (BWR) Vessel and Internals Project (BWRVIP) submitted an affidavit executed by Mr. Steven Swiley, Director, Nondestructive Evaluation, Electric Power Research Institute, on February 13, 2015, requesting the information contained in the following document be withheld from public disclosure under Title 10 of the *Code of Federal Regulations* (10 CFR), 2.390, "Hearing Requests, Petitions to Intervene, Requirements for Standing, and Conditions."

BWRVIP-84, Revision 2

A non-proprietary copy of this document has been placed in the U.S. Nuclear Regulatory Commission's (NRC) Public Document Room and added to the NRC Library under the ADAMS Accession No. mentioned above.

The affidavit provides reasons for requesting withholding of the report.

The NRC staff has reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, has determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version(s) of the submitted information marked as proprietary will be withheld from public disclosure under 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, the NRC staff may send copies

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand the NRC staff may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC staff makes a determination adverse to the above, you will be notified in advance of any public disclosure.
