Washington, DC 20555-0001

**SUBJECT: ADVISORY COMMITTEE ON THE MEDICAL USES OF ISOTOPES BRIEFING BEFORE
THE COMMISSION**

I want to thank you all for the time and interest you devoted to meeting with the members of the Advisory Committee on the Medical Uses of Isotopes. The meeting seemed useful and the discussion quite candid. It was obvious to us that the Commissioners had prepared for the meeting and listened carefully to what we had to say, and the questions asked focused on the salient issues.

While I cannot speak for the Committee as a whole (we have not posted public notice to discuss this officially), the Committee members present for the briefing, as well as many of the members who watched via the web broadcast, have communicated that it was the most effective interaction that the Committee and the Commission have had, at least within recent memory. We look forward to future meetings with such positive interactions and open dialogue with the Commission and staff.

Sincerely,

A handwritten signature in black ink, appearing to read 'Bruce Thomadsen'.

Bruce Thomadsen, Chair
Advisory Committee for Medical Uses of Isotopes
