Subject: Verbal Notification of release on permit 633, Wellfield 4/4A, NRC SUA-1548

This email is to document that verbal notification or voice mail was given to your office on 5-22-15 of a reportable release on Permit 633, NRC Source Material License SUA-1548. The release was discovered on Thursday 5/21/15 at approximately 2:30 pm. The data reported is as follows;

- * Location: Deep Injection Well DDW #1 well house.
- * Release estimated at 480 gallons of discharge fluid onto the ground surface. Fluid did not enter into waters of the state. A sample for uranium content showed 7.0 ppm.
- * Cause: Stainless Steel 1/2" plug was ejected from the discharge piping flange of a flow meter.

The WDEQ-Emergency Response Coordinator (Joe Hunter) was given verbal notification by voice mail and a report will be filed in the WDEQ spill database.

A written notification will be sent out on or before Thursday, May 28, 2015.

Please reply or call if more information is needed.
