The Honorable James M. Inhofe  
Chairman, Committee on Environment  
and Public Works  
United States Senate  
Washington, DC 20510

Dear Mr. Chairman:

The U.S. Nuclear Regulatory Commission (NRC) is amending its regulations related to the packaging and transportation of radioactive material. Some of the amendments have been made in consultation with the U.S. Department of Transportation (DOT), where the NRC is conforming its regulations to maintain consistency with the International Atomic Energy Agency's regulations regarding the international transportation of radioactive material. The DOT likewise amended its regulations in July 2014. The NRC final rule will soon be published in the *Federal Register*. For more information, see the NRC's enclosed final rule.

Please feel free to contact me at (301) 415-1776 if you have questions or need more information.

Sincerely,
