**-ADDENDUM TO-
Indigenous Elders And Medicine Peoples Council
Statement Fukushima**

**Beyond Climate Change to Survival on
Sacred Mother Earth**

United Nations - September 21, 2014

All Creation has a right to live and survive on this Sacred Earth and raise their Families where the Creator placed them to be.

The Creator created the People of the Earth into the Land and gave us a Way of Life. This Sacred Way of Life has been passed down generation-to-generation since the beginning of the Creation of Life. The sanctity of this Way of Life has been violated and abused by people who are living without regard for the well being of Mother Earth and our collective future.

There is no more time for discussion on preventing "Climate Change". That opportunity has passed. "Climate Change" is here. The Air is not the same anymore. The Water is not the same anymore. The Earth is not the same anymore. The Clouds are not the same anymore. The Rain is not the same anymore. The Trees, the Plants, the Animals, Birds, Fish, Insects and all the others are not the same anymore. All that is Sacred in Life is vanishing because of our actions. The truth is we have moved beyond climate change to survival on Sacred Mother Earth.

We've entered the state of survival because of the magnitude of the desecration, damage, and destruction to the Creator's Sacred Creation. Modern living and all that it encompasses does not respect the Sacredness of Life and has ruptured the sacred seal around the Earth. This has contributed to extreme weather patterns and the melting of the Ice - the sacred cooling system of Mother Earth. Man-made creations of vehicles, trains, railroads, airplanes, bullets, guns, weapons, spaceships, building of high rise towers, shopping malls, roads, slaughtering of animals for recreation, the genetic alteration and pollution of our food and water sources, introduction of invasive species, drilling and digging deep into Mother Earth, and into the mountains for oil, gas, gold, silver, minerals, precious stones, coal and uranium, and all the others. Changing whole ecosystems forever by draining wetlands, changing the course of rivers, clear cutting of forests, damming rivers and flooding lands to cool nuclear reactors and natural gas plants, damming rivers for hydroelectric power, using rivers and lakes for dumping toxic chemicals and sewage, polluting the Earth and Oceans with toxic chemicals and waste and piling up and burying garbage has contaminated and polluted our Earth. All these and more created Climate Change.

Aboriginal Indigenous Peoples have seen first-hand the impacts of these destructive actions and have sent out messages to the people of this world warning that “this dark time” or “this day” would come if the people did not immediately stop their destructive activities and re-align themselves in harmony and balance with the natural world. Our messages of prophecy fell on deaf ears and remained unseen by eyes blinded by money, greed and power.

Today, we lack leadership. We have misplaced our trust in governmental leaders and the leaders of industry. They failed us by trying to maintain their profits, economies and their power over the people. Their lack of action to adequately and seriously work to prevent “climate change” has brought us to the state of survival, threatening the collective future of All Life. As Indigenous Peoples we have seen that Indigenous governmental leaders have also abandoned the Sacredness of the Natural Law and are now pursuing money and power at the expense of our Way of Life. We strongly urge all leaders to work and consult with us, the spiritual people of the Earth, to solve the world’s problems, without war. We extend to you an open invitation and extend our hand to you, so that together we can begin to shift from the path of self-destruction to the path of peace, harmony and balance with All Creation.

Our message today is this: We cannot live on the Moon or Mars so people must change their behavior. We must sacrifice and move beyond our own comforts and pleasures. We must stop the damaging activities and begin working on restoring the natural environment for the future of All Life. To date, the Sacred has been excluded from all discussions and decisions. **TO SURVIVE CLIMATE CHANGE AND SEE THE FUTURE WE MUST RESTORE THE SACRED IN OURSELVES AND INCLUDE THE SACREDNESS OF ALL LIFE IN OUR DISCUSSIONS, DECISIONS AND ACTIONS.**

We must restore the Sacredness within ourselves, within our families, within our communities and within our Nations. We must respect, follow and uphold the Creator’s Natural Law as a foundation for all decision-making, from this point forward. This begins with a deep respect and understanding of the human life cycle. To bring sacredness back into this cycle, human beings must bring forth life in a conscious way, honoring our sacred obligation to care for that life. With the creation of life comes a responsibility to ensure the care and survival of that life throughout the lifespan of the child we are bringing forth. When we bring forth life haphazardly and without sacredness, with no concern for how that life will be sustained, we violate our sacred responsibility and bring imbalance to Mother Earth. We must restore our balance with Creation and respect the sacredness of our sexuality, and our ability to bring new life into this world.

We come into Life as sacred beings. When we abuse the sacredness of Life we affect all Creation.

The people of the world cannot continue to ignore Aboriginal Indigenous Peoples, the Natural System of Life, the Natural Law and our connection with All Life. We must open our hearts to Love, Care and have Respect for one another and All Creation. We must unite globally and walk in balance and harmony together to create peace. No one can survive without clean Air, clean Water, and a clean Earth. We cannot breathe money, we cannot eat or drink money. The people of the world must recognize that man made laws have failed us and will continue to fail us, because those laws promote profit and power over our sacred obligation to All Life and our shared future.

Aboriginal Indigenous Elders and Medicine Peoples are not scientists, but we do have a connection to the source of Truth and Life, we have our “Prophecies” and the “Signs” of disharmony. All of these sources of knowledge tell us clearly what will happen if we do not change our behavior. All of the things that are happening today are the very same things that were spoken of in the earlier days, the very things that the Creator warned would happen, if we failed to respect and follow His Natural Law. There are scientists and experts that know the scientific reality of what is going on. They know that life will vanish if we continue in the direction we are going. These scientist and experts must speak the truth to the people and not be controlled by those that provide their paychecks.

The people of the World must take immediate action to shift from money and power orientated decisions to decisions that are based on balance and harmony with all life and in peace with one another.

We are all responsible and we are all capable of creating a new path forward with new sources of energy that do not harm the people or the Earth. We are obligated to all take action now to protect what is left of the Sacredness of Life. We can no longer wait for solutions from governmental and corporate leaders. We must all take action and responsibility to restore a healthy relationship with each other and Mother Earth. Each of us is put here in this time and this place to personally decide the future of humankind. Did you think the Creator would create unnecessary people in a time of such terrible danger? Know that you yourself are essential to this World. Believe that! Understand both the blessing and the burden of that. You yourself are desperately needed to save the soul of this World. Do you think you were put here for something less?

We are the People of the Earth united under the Creator’s Law, with a sacred covenant to follow and uphold and a sacred responsibility to extend Life for all future generations. We are expressing deep concern for our shared future and urge everyone to awaken spiritually and take action. It is critical that we come together with good minds and prayer as a global community of all faiths, to honor the Creator and the Creator’s Gift by restoring the Sacredness in Ourselves. We must work in unity to help Mother Earth heal so that she can bring back balance and harmony for all her children.

Council Statement

This statement reflects the wisdom of the Spiritual People of the Earth, of North and South America, working in unity to restore peace, harmony and balance for our collective future and for all living beings. This statement is written in black and white with a foreign language that is not our own and does not convey the full depth of our concerns.

The Creator created the People of the Earth into the Land at the beginning of Creation and gave us a way of life. This way of life has been passed down generation-to-generation since the beginning. We have not honored this way of life through our own actions and we must live these original instructions in order to restore universal balance and harmony. We are a part of Creation; thus, if we break the Laws of Creation, we destroy ourselves.

We, the Original Caretakers of Mother Earth, have no choice but to follow and uphold the Original Instructions, which sustains the continuity of Life. We recognize our umbilical connection to Mother Earth and understand that she is the source of life, not a resource to be exploited. We speak on behalf of all Creation today, to communicate an urgent message that man has gone too far, placing us in the state of survival. We warned that one day you would not be able to control what you have created. That day is here. Not heeding warnings from both Nature and the People of the Earth keeps us on the path of self destruction. This self destructive path has led to the Fukushima nuclear crisis, Gulf oil spill, tar sands devastation, pipeline failures, impacts of carbon dioxide emissions and the destruction of ground water through hydraulic fracking, just to name a few. In addition, these activities and development continue to cause the deterioration and destruction of sacred places and sacred waters that are vital for Life.

*Powerful technologies are out of control
and are threatening the future of all life*

The Fukushima nuclear crisis alone is a threat to the future of humanity. Yet, our concern goes far beyond this single threat. Our concern is with the cumulative and compounding devastation that is being wrought by the actions of human beings around the world. It is the combination of resource extraction, genetically modified organisms, moral failures, pollution, introduction of invasive species and much much more that are threatening the future of life on Earth. The compounding of bad decisions and their corresponding actions are extremely short-sighted. They do not consider the future generations and they do not respect or honor the Creator's Natural Law. We strongly urge for the governmental authorities to respond with an open invitation to work and consult with us to solve the world's problems, without war. We must stop waging war against Mother Earth, and ourselves.

We acknowledge that all of these devastating actions originated in human beings who are living without regard for the Earth as the source of life. They have strayed from the Original Instructions by casting aside the Creator's Natural Law. It is now critical for humanity to acknowledge that we have created a path to self destruction. We must restore the Original Instructions in our lives to halt this devastation.

The sanctity of the Original Instructions has been violated. As a result, the Spiritual People of the Earth were called ceremonially to come together at the home of the Sacred White Buffalo Calf Pipe Bundle. These Spiritual Leaders and those that carry great responsibility for their people from both North and South America came together with the sacred fire for four days at the end of September 2013 to fulfill their sacred responsibilities. During this time it was revealed that the spirit of destruction gained its strength by our spiritually disconnected actions. We are all responsible in varying degrees for calling forth this spirit of destruction, thus we are all bound to begin restoring what we have damaged by helping one another recover our sacred responsibility to the Earth. We, the Original Caretakers of Mother Earth, offer our spiritual insight, wisdom and vision to the global community to help guide the actions needed to overcome the current threats to all life.

We only have to look at our own bodies to recognize the sacred purpose of water on Mother Earth. We respect and honor our spiritual relationship with the lifeblood of Mother Earth. One does not sell or contaminate their mother's blood. These capitalistic actions must stop and we must recover our sacred relationship with the Spirit of Water

The People of the Earth understand that the Fukushima nuclear crisis continues to threaten the future of all life. We understand the full implications of this crisis even with the suppression of information and the filtering of truth by the corporate owned media and Nation States. We strongly urge the media, corporations and Nation States to acknowledge and convey the true facts that threaten us, so that the international community may work together to resolve this crisis, based on the foundation of Truth.

We urge the international community, government of Japan and TEPCO to unify efforts to stabilize and re-mediate the nuclear threat posed at the Fukushima Dai-ichi nuclear power plant. To ensure that the Japanese government and TEPCO are supported with qualified personnel and information, we urge the inclusion of today's nuclear experts from around the world to collaborate, advise and provide technical assistance to prevent further radioactive contamination or worse, a nuclear explosion that may have apocalyptic consequences.

The foundation for peace will be strengthened by restoring the Original Instructions in ourselves

Prophecies have been shared and sacred instructions were given. We, the People of the Earth, were instructed that the original wisdom must be shared again when imbalance and disharmony are upon Mother Earth. In 1994 the sacred white buffalo, the giver of the sacred pipe, returned to the Lakota, Dakota and Nakota people bringing forth the sacred message that the winds of change are here. Since that time many more messengers in the form of white animals have come, telling us to wake up my children. It is time. So listen for the sacred instruction.

All Life is sacred. We come into Life as sacred beings. When we abuse the sacredness of Life we affect all Creation

We urge all Nations and human beings around the world to work with us, the Original Caretakers of Mother Earth, to restore the Original Instructions and uphold the Creator's Natural Law as a foundation for all decision making, from this point forward. Our collective future as human beings is in our hands, we must address the Fukushima nuclear crisis and all actions that may violate the Creator's Natural Law. We have reached the crossroads of life and the end of our existence. We will avert this potentially catastrophic nuclear disaster by coming together with good minds and prayer as a global community of all faiths.

We are the People of the Earth united under the Creator's Law with a sacred covenant to protect and a responsibility to extend Life for all future generations. We are expressing deep concern for our shared future and urge everyone to awaken spiritually. We must work in unity to help Mother Earth heal so that she can bring back balance and harmony for all her children.
