SUBJECT: NON-ACCEPTANCE LETTER FOR TOPICAL REPORT WCAP-17938, "AP1000 IN-CONTAINMENT CABLES AND NON-METALLIC INSULATION DEBRIS INTEGRATED ASSESSMENT" (PROJECT NO. 0811)

Dear Mr. DeLong:

By letter dated March 12, 2015 (Agencywide Documents Access and Management System Accession No. ML15076A069), Westinghouse Electric Company (WEC) submitted WCAP-17938, "AP1000 In-Containment Cables and Non-Metallic Insulation Debris Integrated Assessment," to the U.S. Nuclear Regulatory Commission (NRC) staff for review.

The purpose of this letter is to provide the results of the NRC staff's acceptance review of WCAP-17938. The acceptance review was performed to determine if there is sufficient technical information in scope and depth to allow the NRC staff to complete its detailed technical review. The NRC staff has reviewed WCAP-17938 and concluded that it did not provide technical information in sufficient detail to enable the NRC staff to complete its detailed review and make an independent assessment regarding the acceptability of WCAP-17938.

These deficiencies were clarified to your staff during the conference call on May 21, 2015. The NRC staff identified that the information included in the enclosure (Item 1) to this letter is needed to complete its technical review. NRC staff also provided additional gaps that will need to be addressed in a subsequent re-submittal (see Enclosure, Item 2, gaps 1-23).

The NRC staff notes that its review to date has identified that your application did not provide the technical information (see Enclosure) in sufficient detail to enable the NRC staff to complete its detailed review. Therefore, if you decide to re-submit the request, it must include at a minimum, the information provided in the enclosure (Item 1).

Document transmitted herewith contains sensitive unclassified information. When separated from the enclosure, this document is "DECONTROLLED."
