Subject: Question on APP-GW-GLR-161

Bob and Jen –

Can you clarify in APP-GW-GLR-161, on page 28 of 63, in the 5/5/15 submittal, the following two references are cited:

10) APP-FSAR-GF-006 Revision 0, "Levy County Units I & 2 Request for Additional Information Question 06.03-10, 06.03-11, and 06.03-12: Clarification of Passive Residual Heat Removal Heat Exchanger Design Requirements - Supplemental Response"

11) APP-FSAR-GF-007 Revision 0, "Levy County Units 1 & 2 Request for Additional Information Question 06.03-10, 06.03-11, and 06.03-12: Clarification of Passive Residual Heat Removal Heat Exchanger Design Requirements - Supplemental Response"

Question: Do these citations refer to the Duke submittal provided on June 27, 2014, or something else? I do not recognize the numbers APP-FSAR-GF-006 and -007.

Thanks

Subject: Levy COL - Condensate Return - Revised DCD Departure Language in 7.4

Tung –

Can you please take a look at this recent submittal for Levy? I need to know whether ICE will have an SER input related to it.

This document is an update to the AP1000 DCD departure document you previously reviewed that dealt with the design of the condensate return system. This document includes an additional change to DCD Section 7.4.

Please let me know if you have any questions.

Thanks
Don
