SUBJECT: APPLICABLE REGULATIONS FOR GENERALLY LICENSED DEVICES
CONTAINING BYPRODUCT MATERIALS AND AUTHORIZED PURSUANT TO
10 CFR PART 31

You are receiving this notification, which includes the attached table(s) of applicable sections of the U.S. Nuclear Regulatory Commission's (NRC's) regulations, because you possess one or more generally licensed devices authorized under Title 10 of the *Code of Federal Regulations* (10 CFR Part 31), or under equivalent regulation of an Agreement State. Please review the requirements of 10 CFR Part 31 and other applicable regulations which can be accessed by opening NRC web site link <http://www.nrc.gov/reading-rm/doc-collections/cfr/>.

Please verify that you have the appropriate regulatory sections provided to you by comparing the information about the generally licensed devices as indicated by the label on the outside of the device. For safety reasons, DO NOT TRY TO DISMANTLE any device to verify this information. If you are uncertain how to identify device labels, contact the device manufacturers/distributors or an appropriately authorized service agent for this information.

No response to this letter is requested; however, if you have specific questions regarding regulatory requirements or your responsibilities as a general licensee, please contact Hector Rodriguez-Luccioni by phone (301) 415-6004, or email Hector.Rodriguez-Luccioni@nrc.gov, or visit <http://www.nrc.gov/materials/medical.html>. In addition you may submit your queries to the attention of GLTS Project Manager, U.S. Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards, Washington, DC 20555-0001.
