**To:** Saxton, John  
**Cc:** Ben Schiffer  
**Subject:** Preoperational License Condition 12.11B

Hi John:

By letter dated January 16, 2015 Strata Energy Inc. (Strata) submitted a Groundwater Detection Monitoring Plan. The submittal letter stated that the Plan was intended to meet the preoperational requirements of License Conditions 12.11C, requiring a CPP Effluent and Environmental Monitoring Program and 12.12, requiring a groundwater detection monitoring program for the retention ponds. The submittal letter should have also stated that the plan was intended to address the requirements of License Condition 12.11B, which requires the submittal of requirements for inspection of the CPP dewatering system. These requirements are contained in Section 3 of the provided Plan. Strata requests that NRC review and verify that the Plan meets the requirements of License Condition 12.11B.

Please let me know if you have any questions.

Mike
