**Subject:** FOIA REQUEST on Arguments about Fukushima Tank Hydrogen Explosion

Dear FOIA Officers

Good afternoon.  
 This is a freedom of information act request.

The Items I am seeking are

1. **All the agency's records concerned about the possibility of hydrogen explosion of radioactive contaminated water tanks in Fukushima which had been drafted the news coverages on this issue have raised last week."**
2. **All the records ( excluding media coverages agency has obtained ) concerned about the possibility of hydrogen explosion of radioactive contaminated water tanks in Fukushima which had been drafted since the news coverages on this issue have raised last week and upto the date of this request."**

By requesting item 1. I am aiming for see (1) whether the agency stuffs ( and maybe perhaps its counterpart ) were aware of the possibility of the incident now being concerned (2) and if so, how the argument went. And item 2 is concerned about the probability and countermeasure of the explosion.

FYI please see the link below.

( <http://www.ibtimes.co.uk/hydrogen-explosion-threat-japans-fukushima-nuclear-plant-due-leaking-containers-1502827> )

I am a news media representative and the documents which would be obtained shall be used only for reporting. And your response to this request and the story based on that will contribute public understanding of nuclear plant safety and its economic cost when a severe accident occurs. Therefore, I request a full fee waiver and expedite processing.

Warmest Regards,

Takanori Eto
