John,

Kellee and I discussed the schedule for the Class V Amendment Request. We anticipate that an acceptance review/RAI'S can be issued by the mid-July 2015 timeframe. I haven't had a firm commitment on a Health Physics reviewer; however, it is anticipated that a reviewer can be assigned prior to mid-July such that any comments can be included in the to-be-issued RAI's.

We can better address the timing of completion of the action after we develop the RAI's. Based upon a preliminary review, we expect that the environmental review may be completed as an Environmental Assessment. As such, it is likely that the review can be completed prior to the end of the year.
