Subject: COMMENT ON FPL'S TURKEY POINT EXPANSIONS

As a concerned citizen and resident in Miami.

It is beyond me how it is obvious that our best source of power is solar . SUNSHINE STATE . It is a no brainer that investing in solar power technologies would take us into the future and the forefront of implementing the use of solar power in our state . I am sure FPL can absolutely afford to take this on and spend the \$ on this totally renewable and clean energy resource .

I support use of Solar Power .

Thank you .
