**Subject:** RE: URGENT: Reply Requested Re: EPA's request to have someone come to our office to copy files.

Ms. Hill:

I am the RSO for Material License 27-05861-02 held by the U.S. Environmental Protection Agency, National Center for Radiation Field Operations in Las Vegas, NV. When I took over as the RSO I discovered that a majority of the license documents are missing. I am trying to rebuild this information and request a copy of all documents held by the NRC Region 4 office pertaining to Material License 27-05861-02. George Brozowski from the EPA's Dallas office is assisting me in this effort and is authorized to receive the documents requested.

Thank you for your assistance. If you have any questions or concerns please feel free to contact me.

Sincerely,  
Dr. Edward Wilds

**Importance:** High

Good Morning,

I've received a call from George Brozowski from the EPA's Dallas office. He has requested to come to our office tomorrow, May 8, 2015, to make copies of our files relating to your Nuclear Materials License 27-05861-02 for your office. If you (your office) has in fact requested that he do this, please provide your request/authorization in writing to this office today. We cannot freely release this information without your direct approval. When last I spoke to Mr. Brozowski he seemed unclear on exactly what documents he would be looking for – which documents you needed. In your request/approval, please tell us what documents you are looking for and what should be released to Mr. Brozowski.

Please be aware that you may obtain copies of documents dating from the year 2000 forward in our online Agencywide Documents Access and Management System (ADAMS) which can be accessed here: <http://www.nrc.gov/reading-rm/adams.html>

Any documents dated before the year 2000 are only available via the hard copies located in our office here in Region IV.
