Re: License Amendment Request  
License #06-28068-01 03030105

REC'D 1061815AM0741

Dear LAT,

GZA GeoEnvironmental Inc. hereby requests a license amendment to increase the number of gages we can possess. Our current license allows up to three gages in the company's possession and we intend to add three gages within the next few months. The gages we plan to add are all Troxler 3400-series gages, which are the same as we currently possess.

We request two changes to Part 8 of our license, increasing the allowed amount of Cesium 137 activity from 27 to 54 millicuries and the amount of Americium 241 activity from 132 to 264 millicuries.

Sincerely,  
GZA GEOENVIRONMENTAL, INC.
