**Subject:** I Oppose the Proposed Expansion of Turkey Point, Docket ID: NRC-2009-0337

May 17, 2015

Chief Cindy Bladley

U.S. Nuclear Regulatory Commission, Office of Administration, OWFN 12  
H8  
Washington, DC 20555

Dear Chief Bladley,

As someone concerned about public safety, I am writing to express my opposition to the proposed expansion of Turkey Point Power Plant (Docket ID: NRC-2009-0337), located in Homestead, Florida.

The site proposed for expansion is located on the shores of Biscayne National Park, in an area that is extremely susceptible to sea level rise and the impacts of climate change. The expansion of Turkey Point could have serious environmental impacts on sensitive ecological habitat and the health and sustainability of limited freshwater resources.

Biscayne National Park is a national treasure that safeguards precious natural resources and recreational opportunities. Within six miles of the proposed expansion site, there are two national parks, an aquatic preserve, a national wildlife refuge, and a wetland habitat preserve.

The expansion of Turkey Point could have unacceptable and irreversible impacts on these treasured sites.

Operating two new reactors at Turkey Point could also have huge impacts on the quantity and quality of precious freshwater resources. The withdrawal of massive amounts of water from under Biscayne Bay as back-up cooling water could increase salinity levels within the Bay and hasten saltwater intrusion into our limited freshwater supplies.

Furthermore, expanding a nuclear power plant in an area that is ground zero for sea level rise threatens the future of South Florida.

I strongly oppose the expansion of Turkey Point as proposed due to the project's potentially widespread negative environmental and public health and safety impacts and the serious threats it poses to Biscayne National Park.

Thank you for considering my comments on this important matter.

Sincerely,

Mr. Eddie Konczal  
22 1st Ave  
Monroe Township, NJ 08831-8720
