NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

June 29, 2015

Mr. Vito Kaminskis
Site Vice President - Nuclear Generation
DTE Electric Company
Fermi 2 - 280 OBA
6400 North Dixie Highway
Newport, MI 48166

SUBJECT: SCHEDULE REVISION FOR THE REVIEW OF THE FERMI 2 LICENSE
RENEWAL APPLICATION

Dear Mr. Kaminskis:

By letter dated April 24, 2014, DTE Electric Company (DTE) submitted an application pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51 and 10 CFR Part 54, to renew the operating license NPF-43 for Fermi 2, for review by the U.S. Nuclear Regulatory Commission (NRC). This letter is to inform you of a change in the environmental review schedule for the Fermi 2 license renewal review.

The original license renewal schedule was developed assuming only one round of Severe Accident Mitigation Alternative (SAMA) analyses request for additional information (RAI). To date, there have been three rounds of RAIs sent to DTE by NRC staff by letters dated November 18, 2014 (Agencywide Documents Access and Management System Accession No. ML14308A358), February 3, 2015 (ML15026A307), and April 9, 2015 (ML15092A945). DTE's response to the first SAMA RAI is dated January 9, 2015 (ML15009A358), the second SAMA RAI is dated March 5, 2015 (ML15064A099), and the third SAMA RAI is dated May 8, 2015 (ML15141A163).

Issuing the two additional SAMA RAIs has resulted in a delay in NRC staff completing the SAMA review. As a result of this delay, there is a corresponding delay in publishing the draft and final supplemental environmental impact statement (SEIS). The new dates for the environmental review milestones are on the Fermi 2 License Renewal Application Review Schedule which is enclosed with this letter.

V. Kaminskas

- 2 -

Enclosed is the NRC staff's revised review schedule for the Fermi 2 license renewal application. If you have any questions related to the revised schedule, please contact Elaine Keegan at 301-415-8517 or by e-mail at Elaine.Keegan@nrc.gov.

Sincerely,

/RA/Jane Marshall for

Christopher G. Miller, Director
Division of License Renewal
Office of Nuclear Reactor Regulation
