May 8, 2015

Dear Ms. Bladley

I am a resident of
Miami Beach, Florida.

I read an article in
the Miami Herald about
FPL's Nuclear-power plan
at Turkey Point to build
two new nuclear reactors
and miles of 10-story
Transmission lines in
residential Miami Dade
County and downtown
Miami.

(2)

I believe this project is
not in the best interest
of the citizens of Miami
Dade

I believe the future
is better served by using
solar energy and energy
conservation and efficiency.

As the article states, FPL's
plan is regressive and
harmful. I hereby
state my OBJECTION
to this project.

We need to protect the
environment for future
generations. We need to be
wise!

 Francine Cooper
