TOPICS RELATED TO THE ADVANCED POWER REACTOR 1400
DESIGN

On April 30, 2015, a Category 1 public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and Korea Hydro and Nuclear Power Co. Ltd. (KHNP) at the NRC offices in Rockville, Maryland. A publicly available meeting summary was issued on June 10, 2015 (ML15142A789). The business portion of the meeting was closed to the public because of the discussion of proprietary presentation material related to the Topical Report "KCE-1 Critical Heat Flux Correlation for PLUS7 Thermal Design (APR1400-F-C-TR-12002-P, Revision 0) that are proprietary to KHNP supporting the Advanced Power Reactor 1400 (APR1400) design certification application that was submitted to the NRC on December 23, 2014, and formally accepted for review on March 6, 2015. The meeting discussion addressed technical licensing conditions related to the topical report that are proprietary to KHNP.

The purpose of this memorandum is to record the handout materials that were presented by NRC during the discussion. These materials are considered proprietary to KHNP and are not publicly-available.
