Subject: Extension of due date for the CB&I Laurens facility reply to Notice of Nonconformance

CB&I Laurens acknowledges receipt of NRC Inspection Report Number 99901432/2015-201 and Notice of Nonconformance dated May 22, 2015. In consideration of issues identified by the NRC during the inspection, CB&I Laurens immediately initiated actions to resolve the items identified in the Notice of Nonconformance.

In order to complete the evaluations for corrective actions associated with the Notice of Nonconformance, CB&I Laurens has requested additional time to respond to the identified nonconformances. It has been determined that extension of the reply date to July 22, 2015, is needed to ensure that thorough evaluations have been completed, and that these evaluations identify the causal factors and actions to be taken to avoid further noncompliance.

The need for additional time was discussed in an email conversation on June 17, 2015, between Brian Gibson, CB&I Director of Quality Fabrication & Manufacturing, and Yamir Castillo-Diaz, NRC. Yamir Castillo-Diaz concurred with the time extension for response to the Notice of Nonconformance, as provided by the NRC inspection report guidance, which states, "Where good cause is shown, the NRC will consider extending the response time."

Thank you for your consideration of this matter. If you have any questions pertaining to this information, please contact Matt Rossignol, CB&I Laurens Quality Manager, at 864-683-3986.

Sincerely,

A handwritten signature in dark ink that reads "Matt Rossignol". The signature is fluid and cursive, with the first name being more prominent.

Matt Rossignol
Quality Manager, CB&I Laurens
